

**1012 E.B.C.™ Three Warmer
In-Line Automatic Coffee Brewer**
(with Hot Water Faucet)

**1016 E.B.C. Three Warmer
In-Line Automatic Coffee Brewer**
(with Hot Water Faucet)

**1040 E.B.C. Two Warmer
In-Line Automatic Coffee Brewer**
(with Hot Water Faucet)

**1072 E.B.C. Three Warmer Stepped
Right Automatic Coffee Brewer**
(with Hot Water Faucet)

The E.B.C.™ systems have added Electronic Brewer Control technology to our standard electro-mechanical brewers. Many of the same body configurations and parts of our standard electro-mechanical units were used, making service quick and easy. The E.B.C. system uses a touch keypad with switches and lights, plus an audible signal. The lights and signal guide the user through the different brewer operations.

Features

- **After Hours Mode** will automatically reduce water temperature when not in use, saving energy and increasing component life.
- **Precise brewing temperature** is established and maintained throughout the brew cycle, providing cold brew lockout and ensuring full flavored coffee and faster brewer recovery.
- **Countdown Quality Timer™** will signal the end of preset coffee holding time.
- **Brew cycle timer** eliminates the risk of double brewing during brew cycle.
- **A high level of commonality of parts** with other Bloomfield models will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design provides **easy access to components** for quick service.
- **Ready-to-Brew light** indicates the proper water temperature to help eliminate the guesswork in brewing.
- Built in **pour over feature** provides flexibility.
- **Unique water valve with built-in flow control** assures consistent operation at 20-80 p.s.i.

Model 1072

Model
1012/1016

- **Electronic sensor** recognizes water temperature extremely accurately for more consistent product.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence.

- **Water volume adjustment** can be made with ease, no panels to remove or tools required.
- **One-piece drawn stainless steel water tank** has a superior design for extended life.
- **Independent front-mounted hot water faucet** allows drawing of hot water without affecting coffee taste or brewing cycle.
- **Warming stations** with porcelain enameled warmer plates position decanters securely and, with no exposed screw heads, will not scratch or scrape decanters.
- High quality easy to clean **stainless steel construction**.

Accessories

Bloomfield offers a full line of coffee warmers, grinders and glass decanters.
