

Precision and perfection in every cup,
consistent high-level performance
for your business.

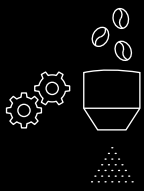

WMF 1500 S+

Endless variety, fully automated.

WMF 1500 S+.

Offering more coffee variations than there are tastes: the WMF 1500 S+ provides maximum choice. Versatile and sleek, it is always ready to deliver special moments of enjoyment.

Unlimited enjoyment

- **Configurable product hoppers:** Available for coffee beans and/or powders such as chocolate, milk powder or other toppings.
- **Perfect milk foam:** Dynamic Milk Assist monitors milk quality and automatically ensures the desired consistency.
- **Dynamic Coffee Assist:** Continuously monitors the quality of all beverages and automatically adjusts the grind and quantity as needed for consistently optimal flavour.
- **Milk systems:** Basic Milk for hot classics, plus Easy Milk for cold specialities and more variety. The Dynamic Milk System enables the fully automatic preparation of four hot milk foam consistencies, three cold milk foam variations, and hot and cold milk.

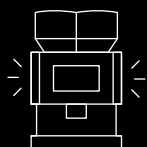

Easy operation

- **Automatic cleaning (optional):** WMF AutoClean takes care of the whole cleaning process – from precise, automatic dosing of the granules to rinsing the coffee and milk systems.
- **10" touch screen:** The display impresses with lifelike images and videos, offering a user-friendly experience right from the start.
- **Cup sensor (optional):** Detects the cup and positions the automatic spout precisely at the right height – for optimal temperature and fewer splashes.

Tailored to your needs

- **Customisable drink size:** The fill quantity can be easily adjusted before dispensing using a touch slider.
- **Illuminated side panels:** LED side panels adapt to the colour of the surroundings and flash when action is required, e.g. when bean hoppers need to be refilled. This feature quickly attracts attention, even from afar.
- **Advertising space:** The 10" touch display can be used to show advertisements or special offers – ideal while drinks are being prepared.

For places where coffee breaks are welcome.

In bakeries, offices, petrol stations or hotels: the WMF 1500 S+ adapts easily to a wide range of applications. It stands out with its choice of coffee specialities, high performance, intuitive operation and smart features such as WMF CoffeeConnect. This allows you to create a consistent premium experience for your guests, customers or employees.

Bakeries

The WMF 1500 S+ perfectly complements your range of baked goods with a variety of coffee specialities – for breakfast on the go or leisurely afternoon coffees. Thanks to its flexibility and capacity, it easily adapts to the needs of your business and ensures satisfied customers who keep coming back.

Offices and workplaces

Whether it's to start the day or for a break in between, the WMF 1500 S+ reliably supplies larger teams with their favourite coffee specialities. High capacity and automatic cleaning ensure a smooth working day.

Hotels and restaurants

From breakfast buffets to à la carte service, the WMF 1500 S+ reliably delivers first-class coffee, even during peak times. Individual add-ons, such as WMF vending machines, allow it to be easily adapted to your business.

Convenience stores and petrol stations

The WMF 1500 S+ consistently delivers high-quality coffee on the go and encourages customers to come back. WMF CoffeeConnect can be used to display targeted advertising content and promotions for an even more attractive offering.

Reliable performance with intuitive operation and a whole range of versatile and advanced features.

add-ons
and payment
devices:

Twin-powder hopper

Two separate chambers provide space for different toppings – for more choice without compromise.

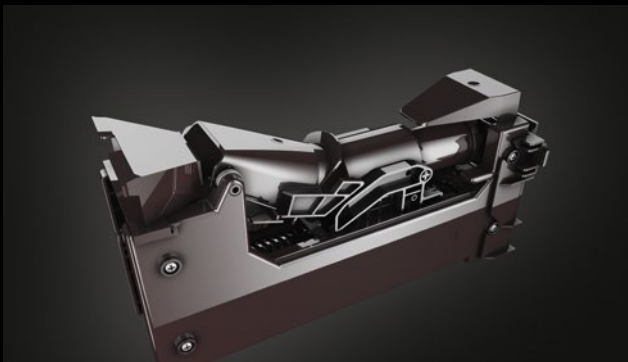

WMF 2-Milk Solution

Connect two different types of milk to your professional coffee machine and offer your customers even more variety and enjoyment.

Dynamic Coffee Assist

The system continuously monitors the brewing flow and automatically adjusts the grind and quantity as needed. This keeps quality, brewing time and ingredient usage stable, ensuring your customers enjoy the best espresso every time.

Professional brewing unit

Made in Germany from robust high-tech polymer for long-lasting reliability. The brewer holds 15 g and can be easily removed for cleaning.

Milk systems

The WMF 1500 S+ is available with Basic Milk, Easy Milk or Dynamic Milk – for beverages with hot and cold milk or milk foam.

WMF CoffeeConnect as standard.

The WMF 1500 S+ is digital-ready. Our telemetry solution connects your machines, provides insights into machine data and optimises processes. This allows you to improve the customer experience and implement completely new business models.

For more information, visit www.wmf-coffeeconnect.com.

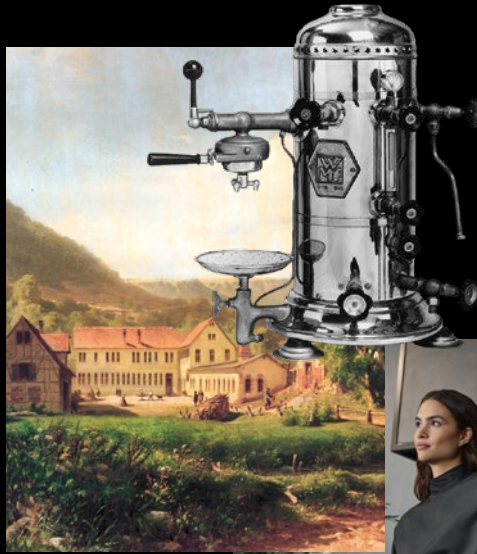

We are making history – every day. The development of our ‘Made in Germany’ coffee machines began back in 1927, the year in which we manufactured our first professional coffee machine. Since then, we have been continuously learning from our customers, in order to create the best coffee experience for you.

Tradition

Our long tradition of German engineering, craftsmanship and attention to detail is still evident today.

We stand for the production of excellent coffee machines, comprehensive service and first-class coffee.

Quality made in Germany

Design, product development, first-class materials, cutting-edge technology – our high-quality standards have brought us to where we are today. They ensure that every machine offers a long service life and outstanding performance.

Innovation

We are constantly setting new standards and developing innovative solutions to help you optimise your coffee business.

Service

From installation and maintenance to repairs: our outstanding service solutions are designed to keep your machines up to date with the latest technology throughout their entire service life.

We make sure your coffee machine works reliably and delivers excellent coffee.

Technical data

325 mm

590 mm

716 mm

WMF 1500 S+

Power connection – coffee and hot water output	2.75–3.5 kW / 220–240 V – 180 cups
Recommended daily / max. hourly output	180 cups*
External dimensions (width / height / depth)	325 / 716 / 590 mm
Water supply	4.5 l water tank / mains water connection
Net weight	32–36 kg
Capacity of bean hopper left / right	1,100 g beans
Capacity of bean hopper center	700 g beans
Capacity of powder hopper	2,000 g powder
Generally lockable product containers and front panel	

* Performance was determined using a machine with a fixed water connection and depends on cup sizes, quality settings, spout, equipment and rated power. The recommended maximum daily output is based on the respective service concept. These average values are for guidance only. Let our trained WMF staff put together a coffee machine solution tailored to your needs.
